Fibre optic distribution box PSZ-12/E/SC

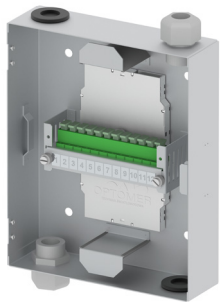

Fibre optic distribution box PSZ-12/E/SC

Features:

• dedicated for FTTH networks
• serves as a fibre distribution box in multi dwelling buildings
• connectivity node to connect subscriber pigtail fibres with vertical cable fibres
• accepts 21 mm vertical ducts
• key locked

Equipment:

• 12 fibre splice tray
• adapter plate
• cable ties, large
• cable ties, small
• 0.9 mm buffered fibre protective band
• DP21 cable glands
• wall-mount kit

Technical specifications:

	PSZ-12/E/SC
number of splices/patching fields	12/12
number of splice trays	1
total spare length of 0.9 mm buffered fibre or compact tube [m]	3
number of vertical cable entries	4
maximum diameter of cables entering through DP21 cable glands	14,0 - 18,0
cable gland diameter	21mm
dimensions width /height /depth [mm]	200/250/60
weight [kg]	2
colour	RAL 7035
housing material	powder coated steel sheet
mechanical IK protection	IK 08
environmental IP protection	IP 40
