

## OLT55 INSERTION LOSS METER

*OLT55 Insertion Loss Meter*

### FEATURES:

- singlemode fibre insertion loss measurement on 2 wavelengths (1310/1550 lub 1550/1625 nm)
- Pass/Fail thresholds, according to ISO/TIA/EN standards
- easy and intuitive Touch and Test(TM) interface
- TRMTM reporting software
- bidirectional measurement may be performed manually or automatically
- FC/PC adapters included

### TECHNICAL SPECIFICATIONS:

model	wavelength [nm]			measurement range [dBm]	units of measure
	1310	1550	1625		
OLT55-3	+	+		+10 to -70	dB, dBm, W
OLT55-5		+	+	+10 to -70	dB, dBm, W
OLT55-6	+	+		+16 to -60	dB, dBm, W

### ORDERING:

OLT55-3 - OLT55 Insertion Loss Meter, operating at 1310 and 1550 nm, with measurement range from 10 dB to 70 dB
