

# Branching closures for connecting microduct bundles

Branching closure for connecting I-type microduct bundles

Branching closure for connecting Y-type microduct bundles

Branching closures for connecting T-type microduct bundles

## Features:

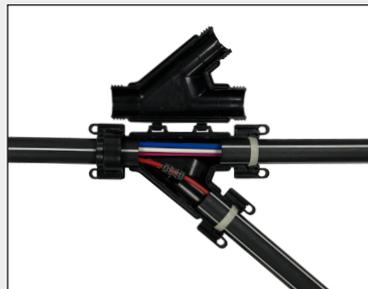

- direct bury or chambers installation
- for installing closure in existing microduct system
- hermetic
- no need to use additional tools for closing

## Technical specifications:

closure type	I-type	Y-type	T-type
material	PP, nylon, TPE	ABS, POM	
dimensions [mm]	615x159x108	290x205x87	360x220x87
for pipe diameters	50	40	
weight [g]	2040	430	540
colour	black		

Open Branching Closure I-type

Open Branching Closure Y-type

Open Branching Closure T-type

## Ordering:

MIK-M	closure type	pipe diameters*
	I	40-40-40
	Y	50-50-50
	T	
MIK-M	- I	- 50-50-50

\* Number and diameter of microducts in accordance with the technical data table.
