

Gas-block straight connector

Gas-block straight connector

Features:

- designed for installation in microducts with cable before entering the building
- protecting against gas leak
- sealing level minimum 1 bar
- water and gasproof
- easy and quick installation
- available with clips preventing disconnection

Technical specifications:

sealing connector	10		12			14	
material	NBR, polymer, silicon						
outer diameter of microtube [mm]	10		12			14	
outer diameter of sealed cable [mm]	5,5 - 6,6	6,5 - 7,2	5,5 - 6,6	6,5 - 7,2	7,6 - 8,2	6,5 - 7,2	7,6 - 8,2
seal colour	green	red	green	red	blue	red	blue
sealing [bar]	16						
tensile strength [N]	< 120						
temperature range for transport and installation [°C]	-25 to +60						
environmental protection	IP 68						

Ordering:

MIK	outer diameter of microtube [mm]	ZPBG	K	outer diameter of sealed cable [mm]
	10			5,5 - 6,6
	12			6,5 - 7,2
	14			7,6 - 8,2
