

PS-19/3MPS/1U
Fibre Optic Patch Panel

19" Patch Panel for 3 MPS Modules PS-19/3MPS/1U

Features:

- The PS-19/3MPS/1U fiber optic patch panel is designed for use in telecommunications, cable television networks and local area networks
- Used for quick configuration of reliable fiber optic links with the use of MPS modules
- Enables service and maintenance measurements
- Installation in 19" racks with a minimum depth of 300 mm, e.g. STP-19M
- Installation in 21" and/or 23" racks with the use of AD-19 adapters

Components:

- MPS-19/12/W Modules
- Bands and cable ties
- Installation and maintenance instructions
- Installation kit

Technical Specifications:

	PS-19/3MPS/1U
Module type	MPS/12/W
Dimensions: Width/Depth/Height [mm]	483x210x44
Maximum number of modules	3
Maximum splice capacity	36
Connector standard	SC/E-2000
Recommended pigtail length, 0.9 mm buffered fibre [m]	1 to 1.5
