

R-06

# R-06 - Fibre manifold

## Features:

- 2 polyethylene tubes at one end of the moulded distribution box, 6 tubes at the other end
- diameter of the 2 input tubes: 4 mm, length: 0.15 m each
- diameter of the 6 output tubes: 3 mm, length: 1.5 m each
- polyethylene tubes included

## Technical specifications:

	R-06
number of cable entries	2 tubes
outdoor cable outer diameter [mm]	4
maximum number of outgoing tubes	6
dimensions: width/height/depth [mm]	9/55/14
weight [kg]	0,02
mounting brackets position	clip
